

Village of Hope

Bangladesh

Can you imagine what it's like not to have a mother or father? In Bangladesh, lots of children don't have a family at all! Some are orphans because their parents died, and some were sent away because their parents are so poor that they can't feed all of their children!

A group called BNM is now building a special "village of hope" just for these children. 6–8 children will live there in each "family" with 2 ladies to take care of them. In this village they can go to school and have gardens to grow food; and it will help them to feel loved and not lonely anymore!

It takes a lot of money to build houses and run schools and plant gardens for these families, so NCM Canada has decided to help this village by sending money and praying. Will you help too?

Community for Peace

Sri Lanka

Do you ever moan because your school bag is so heavy to carry? In a small town in Sri Lanka, the children don't have heavy bags to carry. They don't have school bags at all, or books, or even pencils or paper! And in their schools, there are no boards and no chalk and no water: no place to wash their hands or get a drink!

A few years ago all the people in this town had to run away because of the war. When they came back, everything was broken. Now a group called NCM Lanka wants to help them rebuild their town and plant new gardens and make their schools much better.

All of this costs a lot of money, so NCM Canada is helping by praying and raising money, so that soon the people can feel peace again!

What will you do?
